EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 7-12, in order to put case in condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the present claims are patentable over the prior art of record Schlueter, Jr. et al. 5,922,440 or Chang et al. 5,991,590 or Chambers et al. 5, 459,008 because taken alone or in combination fail to disclose the claimed invention of a continuous intermediate belt for receiving heat-fusible toner images from a photoreceptor surface and for simultaneously fusing and completely transferring said images to a copy sheet as glossy-surface images. The prior art of record fails to disclose or suggest a belt having a support of fibrous fabric material having on the outer surface a thin layer of elastomeric composition which impregnates, penetrates, and anchors to

the fibrous material. The prior art of record fails to disclose or suggest the application of a thin primer layer of polyfunctional hydrolyzed silicone composition to the elastomeric layer. The prior art of record fails to provide any rationale for combining the references to produce the claimed invention with all the stated limitations. Moreover, applicant's remarks concerning the reasons for allowance are noted as persuasive.

3. Applicant's last response of 6/6/2003 was noted as restriction affirmation without traverse.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
